Summer School To Begin June 19 In Elba

The Elba City School Board will offer a summer school session to all students able to all students at both 19, 1967. Summer school is a special educational program for which Federal funds are available, and will be conducted without segregation. Normal Free Choice desegregation procedures will not be applied to this program. Procedures for conducting summer school are adopted to assure compliance with Title VI of the Civil Rights Act of 1964 by the Elba City School Board.

Mr. Elmer Taylor and Board Attorney, Fleetwood Carney, attended a hearing on Friday, May 12, 1967, in Washington, D. C., which was set for the purpose of determining whether or not Elba City School Board was in compliance with Title VI of the Civil Rights Act of 1964. The proceeding was initiated by the Office of General Counsel, Department of Health, Education and Welfare, had previously given notice that federal funds for all new activities and programs were deferred. No decision has been made by the Hearing Examiner, but the matter was continued for the purpose of providing attorneys the opportunity to submit briefs to the Hearing Examiner. No funds will be terminated until a decision is reached by the Hearing Examiner that Elba City School Board is not in compliance with Title VI of the Civil Rights Act of 1964.

Mr. Taylor, Superintendent of Schools, announced that courses of instruction will be available to all students at both Mulberry Heights and Elba High Schools. A more detailed announcement will be made at a later date.

Assessors Records Are Open To Public

The County Tax Assessor, Fred Donaldson, wishes to remind all property owners that the assessment records in the office are public records and are open for inspection at all times. He or the clerk will assist you in obtaining such information as you desire from these records. He also calls your attention to the fact that the date for filing objections relative to your assessed valuation for the 1967 tax year, this date is fixed by the laws of the state. The law also requires that protests be filed with the Secretary of the Equalization Board. You may file, in person, or mail direct to the Equalization Board at Elba, Alabama.

Baptist Choirs To Sing Together Sunday Night

The Music Ministry of First Baptist Church will present a combined choir program Sunday, May 28, at 7:30 P.M. All five choirs will be singing in the service of worship, with each choir singing several songs or anthems, and combining with other choirs for the call to worship and closing anthem.

The enrollment of the choirs has increased during the past year and now a total of 135 people are enrolled in the five choirs.

The choirs, with their directors and accompanists are:

Beginner Music Activity (four through five year old) Mrs. Milton Lites, Director; Mrs. Lamar Foley, Accompanist.

Primary Choir (six through eight year old) Milton A. Lites, Director; Mrs. Milton Lites, Director; Mrs. James R. Martin, Accompanist.

Adult Choir (nine through twelve year old) Milton A. Lites, Director; Mrs. George L. Collier, Accompanist.

Youth Choir (thirteen through eighteen year old) Milton A. Lites, Director; Miss Suzanne Prior, Accompanist.

The public is cordially invited to attend this hour of worship and to enjoy a period of fellowship following the program.

High School Graduations Planned

Graduations are scheduled at three of our local schools this week. The Zion Chapel seniors will graduate on Thursday night (tonight) at 8:00 in the school auditorium.

The Elba High seniors and the Kinston seniors will graduate on Friday night at 8:00. The Elba graduation will be held on the football field with Glenn Bedsole delivering the main address and Rickey Parker, class president, delivering the welcome address.

The Kinston graduation will be held in the high school auditorium.

OUR CHILDREN DESERVE BETTER CARE

Let's start giving the children a break. Stop leaving medicines and dangerous household products where they are easily available for our tiny tots to cause themselves possible harm or even death. There are much too many serious accidents.

We must never leave any medicine within a child's reach. After giving or taking any medicine, lock it up safely in a special cabinet. If you must keep household bleaches and other harmful household products under the sink, make the doors which enclose them impossible for children to open.

YOUR DOCTOR CAN PHONE US when you need a medicine. Pick up your prescription if shopping nearby, or we will deliver promptly without extra charge. A great many people entrust us with their prescriptions. May we compound and dispense yours?

THE CHURCH FOR ALL
ALL FOR THE CHURCH
The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

Taxes on the average motor vehicle in the United States rose 31 per cent between 1955 and the end of 1965, according to Oil Facts.

In 1955 the average tax per vehicle was \$16. In 1965 it was \$155, with \$63 going to the federal gov-

ernment and \$92 to the states. Gasoline taxes ac-count for more than half the total.

District of Columbia motorists paid the highest tax in the nation during 1965 -- an average of \$213 per vehicle. Vermont was second with \$108 and Michi-gan third with \$184.

Control of Government or Government Control

To record the proceedings of the Senate and House of the 86th Congress, 1959-1960, the Senate passed 1,938 measures, and the House 2,143. The total number of bills and resolutions introduced into the House and Senate during the 86th Congress reached the astronomical figure of 10,000.

No Congressman or Senator could read all of the bills introduced in any one Congress if he spent all his time at that task. Most of his time of course must be put in at committee hearings, attending sessions of the House or Senate and keeping in touch with his constituents. If you think your Senator or your Congressman does not always act intelligently, just re-member that he does not have sufficient time to know even a small portion of what is going on in the House and Senate.

This underlines the fact that our government has grown so complex and so vast in its extent that men cannot comprehend it. Free government is possible.

Saturday Drivers Prove To Be Dangerous

The Sunday driver has long been the target of all non-fatal accidents, but according to a survey by The Travelers Insurance Companies, the Saturday driver may be more of a menace.

More fatal accidents occur on Saturdays (21.6 per cent) than on any other day. Sunday takes "second honors" (18.3 per cent).

A Travelers spokesman said drivers should pay attention to traffic -- not store windows. "A moment's distraction can cause a lifetime of agony," he added.

More than 52,500 deaths and 4,400,000 injuries were caused by highway accidents last year. Of these, more than 11,000 deaths and 809,000 injuries occurred on Saturdays. Tues-days recorded the lowest number of deaths and injuries.

Passenger cars were involved in nearly 80 per cent of all fatal accidents and almost 90 per cent of cars, were involved pro- less than two per cent of all registered vehicles, Commercial vehicles, many fatal accidents as were involved in more than two per cent of all highway accidents, which constitute fatalities last year.

FARM NEWS

By Tom Casaday, County Extension Chairman

LOST PEANUTS
According to an agricultural research study, peanut growers may leave a lot of their peanuts underground at harvest time. This study showed that one peanut pod left per 50 square inches (about the area covered by a size 10 shoe) equals some 380 pounds of peanuts lost per acre. Two pods in the same area indicate a loss of about 40% of a crop yielding a ton per acre.

Later in the summer we are going to make a thorough study of their picking and digging recommendations and make it available to Coffee County peanut growers. We certainly can not afford to leave several hundred pounds of peanuts in the ground.

riding together on a buggy. Judge English and several other senior leaders had an opportunity to reminisce. However, I think Mrs. L. L. Farris (Miss Jean) summed up the program that Strickland had given to the volunteer 4-H leaders by saying, "Nowadays, we are working in a wall-to-wall carpeted world compared to the work that early leaders, school teachers, Extension workers and others did in those years right after the turn of the century."

STAKING TOMATOES

Ever since my neighbor beat me growing tomatoes a few years ago, I have been a little hesitant to write about gardening. However, I have learned by watching other folks and by studying that a lot of tomatoes can be grown in a very small space if they are staked and pruned and cared for. Perry Smith, our Extension gardener, gives the following on staking tomatoes: "Drive a 3-foot stake in the ground a few inches from the plant. Select the side branch just below the first cluster; tie it and the main stem to the stake by placing soft string around the plant and crossing it between the vine and the stake. Make the first tie about 12 inches from the ground. Continue to tie the plant to avoid rubbing and scarring. Prune all other lateral branches (suckers) as they appear."

COFFEE NEWS & CHAT

BY SARA E. HUTCHINSON

CORNERED BEEF

The other day while I was talking with my neighbor about good things to eat, the dish of cornered beef and cabbage was mentioned. This led into a discussion of what part of the beef cornered beef came from. Out of curiosity, I looked on my beef chart and found that cornered beef comes from the brisket portion and that it needs to be cooked in liquid. But if you are purchasing the canned cornered beef, then no pre-cooking is necessary.

FLOWER BEDS

Don't wait for the plants in your flower beds to become wilted before you water them.

Check the soil moisture often by taking a sample of soil in your hand and squeezing it. If the soil sticks together, you can wait a few days before watering. But if it crumbles, you should water the area.

Be sure to soak the soil thoroughly when you water—don't just sprinkle the top of the ground. Annual flowers need at least one inch of water every ten to fourteen days.

SAFETY

Hundreds of Coffee County people are thoughtlessly exposing themselves to danger—just by mowing the lawn.

Although power mowers save a lot of energy in keeping lawns neatly trimmed, they can also reap a very grim harvest.

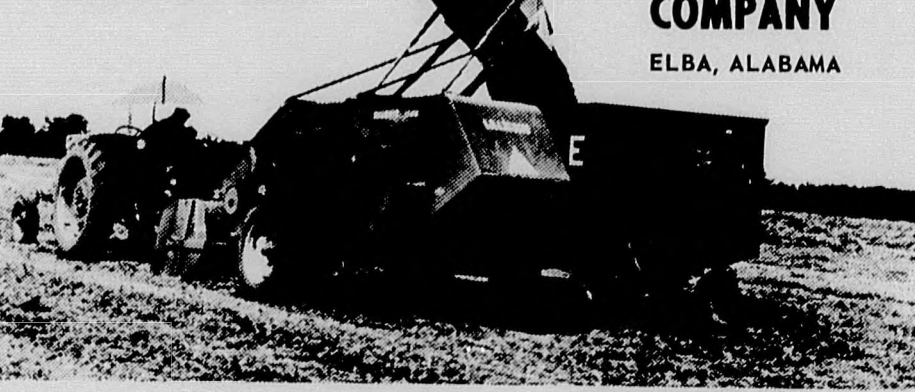

During a recent year, over 2,000 children were injured by flying objects thrown by rotary mowers

types of injury in an additional 7,000 accidents. To help prevent these needless accidents, I'd like to offer a few suggestions: Before you mow, be sure your mower is in safe operating condition; inspect the area for rocks, wire and loose debris; mow only when there are no children around; and never try to adjust or inspect a mower while it's running.

Dorothy Clark in Vietnam

Army Nurse (Captain) Dorothy J. Clark, daughter of Mrs. Euzell Smith, Route 5, Elba, Alabama, was assigned April 27 to the staff at the 2d Surgical Hospital near An Khe, Vietnam. Captain Clark entered the Army Nurse Corps in April 1966 and was formerly stationed at Letterman General Hospital, San Francisco, California. The captain is a graduate of Opp High School and the Providence School of Nursing in Mobile.

Prune Shrubs After Flowering

For best results prune spring-flowering shrubs immediately after flowering. If pruning is delayed, next year's flowers may be removed because buds are formed on some as early as May. Extension horticulturist Harold Thornhill says that in cutting any shrub, remove stems at different heights to promote growth of new shoots throughout the plant.

For shrubs such as spirea, flowering quince, forsythia and pearl-bush, cut one-third of the old stems at ground level. Then remove one-third to one-half of the remaining top growth. Other popular shrubs that need to be pruned after flowering are azalea and camellia. Thornhill points out that blue hydrangea should not be pruned now. Wait until the flowers turn greenish before removing the old stems.

Scientists Develop

Chicken-Quail Hybrid

Scientists have developed a chicken-quail hybrid.

Agricultural researchers have made a successful cross between female Japanese quail and Dark Cornish roosters. This is not the first time scientists have crossed chickens with quail, but it is the most successful. In size and weight the hybrids strike an average between their parents.

At present, basic research is aimed at giving scientists a better picture of the genetic and evolutionary history in part of the animal kingdom. But in the future the research may enable poultry breeders to transfer desirable characteristics—such as disease resistance—from wild birds to domestic poultry.

Plant geneticists have made tremendous strides and the results are hybrid corn, nematode-resistant soybeans, rust-resistant wheat, etc. But progress in animal genetics has been slower, primarily because animals are much more complicated organisms.
